The Jewish Federation is built for moments like this.

For over a quarter of a century, the Jewish Federation of Greater Philadelphia has formed and nurtured a strong bond with its Partnership2Gether (P2G) communities of Netivot and Sdot Negev, which are located in southern Israel and border Gaza. When exploring these regions, you will feel the heart of not only Israel, but also Philadelphia: they even have a Liberty Bell.

That camaraderie is due to the generosity of donors who have enabled the Jewish Federation to connect deeply with the people and institutions there and learn about their unique geographical and socioeconomic realities compared to the rest of the country and world. Through longstanding conversations, relationships and trust, the Jewish Federation has been able to identify and address various issues through its Jewish Community Fund that have and continue to help these regions flourish and be actively prepared for emergencies, such as the Oct. 7 massacre.

When the Oct. 7 attacks happened, the Jewish Federation's team in Israel was already positioned to responsibly raise and effectively allocate your dollars to where the need was greatest through the **Philly Stands with Israel Emergency Fund**.

Thanks to you, the Jewish Federation responded immediately to the urgent crisis and proudly showed how the Greater Philadelphia community is a leader in fighting for humanity. Your support has enabled the Israeli people to remain resilient in the face of unrelenting trauma and continues to act as a guiding light as they begin to rebuild.
